

## HVAC Installer

We are seeking an experienced ductwork installer with a solid experience in installing ventilation ductwork systems, particularly in domestic and small commercial MVHR systems, although training can be provided.

The role involves gaining further experience in commissioning MVHR systems and working towards FGAS qualifications, enabling expansion into AC system installation. Training will be provided in AC/VRV systems, control wiring, and the commissioning of MVHR and ventilation systems.

This position would suit someone looking to transition into a more technical and customer-facing role within the HVAC industry.

## Company Overview:

Elite Renewables is a leading provider of renewable energy solutions, specialising in the design and installation of renewable energy systems and general Mechanical & Electrical (M&E) systems for both domestic and commercial clients. Our mission is to deliver high-quality, sustainable energy solutions that meet the needs of our clients and contribute to a greener future.

## Key Responsibilities:

- Working from site to site independently and reporting direct to the HVAC manager
- Must be reliable and have a professional manner as you will be working directly with clients
- Working in a safe manner at all times and adhere to method statements
- Install MVHR systems and other ventilation systems to provided drawings or as instructed
- Arrange materials/site measure with the HVAC manager or supervisor
- Commission and sign off MVHR systems

## Qualifications & Experience

- Have at least 5 years of experience as a Ductwork Fitter/Improver
- NVQ Level 2 in HVAC Ductwork Installation
- Driving Licence

## Remuneration & Benefits

- Monthly pay with salary negotiable for the right applicant
- 28 days paid holiday inc. bank holidays
- Company van and fuel card – Discretionary
- Pension scheme after passing probation period
- Entry to employee of the month.

How to Apply: Please submit your CV and a cover letter outlining your suitability for the role. We look forward to welcoming a passionate and skilled professional to our team at Elite Renewables.
